If Sir Isaac Newton were alive today, we're pretty sure he would sign off on a physics class field trip to Valleyfair. As a renowned scientist credited with many physics principles we follow today, he would know that an innovative - and totally fun - way to demonstrate the science that deals with matter, energy, motion, and force is a modern-day roller coaster.

Understanding amusement park physics is a great way to give you an appreciation of the dynamics of the various rides. What makes amusement park rides so much fun is the forces your body experiences when you're on them. There are turns, twists, and rapid acceleration. It's quite different from what we experience on a daily basis.
