For a balanced diet: eat at least 5 portions of a variety of fruit and vegetables every day base meals on potatoes, bread, rice, pasta or other starchy carbohydrates – choose wholegrain or higher fibre where possible have some dairy or dairy alternatives, such as soya drinks and yoghurts – choose lower-fat and lower-sugar options

Food labels - NHS

A crucial point to food photography is to have your food looking its best. I like to add some raw vegetables or herbs alongside cooked foods to add more freshness to the dish, especially if the meal is brown, such as chili. I soak herbs and microgreens in cold water for about 30 minutes before using and remove any wilted ones. I add garnishes for colour and interest, preferably ones that show ...

The Beginner's Guide to Food Photography

The Complete Guide to Food Allergy and Intolerance tackles head-on the many myths about food intolerance you'll find on the internet. Unlike much of the `free' information available, the information in this book is accurate, is not biased by any commercial pressures, and is clear and complete. Unlike the information on official medical websites, it tells you about all the valuable research ...
