Giordano Bruno was one of the 16th century's most erudite visionaries, a Dominican monk who fled the Church after being accused of heresy. His cosmological theories went beyond Copernicus's heliocentric visions; Bruno was the first European to conceptualize the universe as a vast continuum populated by many galaxies.

Giordano Bruno was a monk, poet, scientist, and magician on the run from the Roman Inquisition on charges of heresy for his belief that the Earth orbits the sun and that the universe is infinite. This alone could have got him burned at the stake, but he was also a student of occult philosophies and magic.

Heresy (Giordano Bruno, Book 1): S. J. Parris ...

Overview. When fugitive Italian monk Giordano Bruno—philosopher, magician, and heretical scientist—arrives in London, he’s only one step ahead of the Inquisition. An undercover mission for Queen Elizabeth I and her spymaster provides added protection. Officially, Bruno is to take part in a debate on the Copernican theory of the universe at Oxford University; unofficially, he is to find out whatever he can about a Catholic plot to overthrow the queen.
