One of the ironies of Islamic finance is that it has been most successful in jurisdictions based on English Common Law, possibly because some features of modern contract law can be traced back to Islamic roots, notably the law on trusts that seems to be derived from the Islamic institution of waqf. Common law is built up through case law, which correspondents to the Islamic principle of ijtih'd, legal reinterpretation and the introduction of new rules. El-Gamal's discussion of these issues ...

The economic law of Islam given to man by the Almighty through His last Prophet for the purification of the economy is based on the Qur'anic philosophy of creation: the Almighty has created this world as a trial and test for man; every person has therefore been made to depend on others for his living. No one in this world can live independently as regards his needs and requirements.

~~A Summary of the Economic Law of Islam – IslamiCity~~

Islamic finance is a type of financing activities that must comply with Sharia (Islamic Law). The concept can also refer to the investments that are permissible under Sharia. The common practices of Islamic finance and banking came into existence along with the foundation of Islam.
