Volvo Penta's industrial power generation engine range is designed for reliability.

These industrial engines offer the prime or backup power needed in critical situations or at job sites that depend on high performance. Whether it's for backup generators or prime power, our industrial gensets run at full capacity.

## **Industrial Power Generation | Volvo Penta**

The basis for the Volvo Penta Gensets is the smooth running and reliable marine diesel engines. Compact in design, they occupy less space in the engine room, and their good accessibility – with easily accessible service points – makes service and maintenance easy.
