If the transmission fluid level in your xB is low, you need to add transmission fluid through the dipstick tube. When adding transmission fluid to your xB, be sure to add it slowly as it will fill up quickly and is difficult to remove excess fluid if you overfill. If you are having problems with the transmission in your xB, such as clunky shifting or hesitation, check the fluid level first - it is amazing how many drivers pay thousands of dollars for transmission work when a half quart of ...
