Important, interesting, and paradigm-shifting books I've ever read. Unfortunately, The Absent Superpower was a HUGE disappointment.

The Absent Superpower: The Shale Revolution and a World ...

The Absent Superpower broke down the ins and outs of the shale industry in the United States. It helped me better understand how shale actually works.

Although I take BOLD predictions with a grain of salt, Zeihan helped me better understand the geopolitics of many countries of today.

security guarantor of the global order.

Amazon.com: The Absent Superpower: The Shale Revolution ...

The title of Peter Zeihan's latest book, *The Absent Superpower: The Shale Revolution and a World Without America*, does an excellent job of summing up the two main themes running through the text. In Zeihan's mind, the growth of the shale industry in North America, and an American Foreign Policy that is slowly shifting away from its post-World War Two/Cold War footing, mean that the world is about to change in profound ways.

The Absent Superpower: The Shale Revolution and a World ...

In 2014's *The Accidental Superpower*, geopolitical strategist Peter Zeihan made the case that geographic, demographic, and energy trends were unravelling the global system. Zeihan takes the story a step further in *The Absent Superpower*, mapping out the threats and opportunities as the world descends into disorder.
